ATC specializes in consulting with organizations that are interested in completing the transition to **DevOps** and **SAFe**.

*ATC differentiates itself from the competition with:*

Certified Professionals

DevOps Experience

Tools Expertise

End to End Automation

# DevOps

**DevOps** is a software engineering culture and practice that aims at unifying software development (Dev) and software operation (Ops).

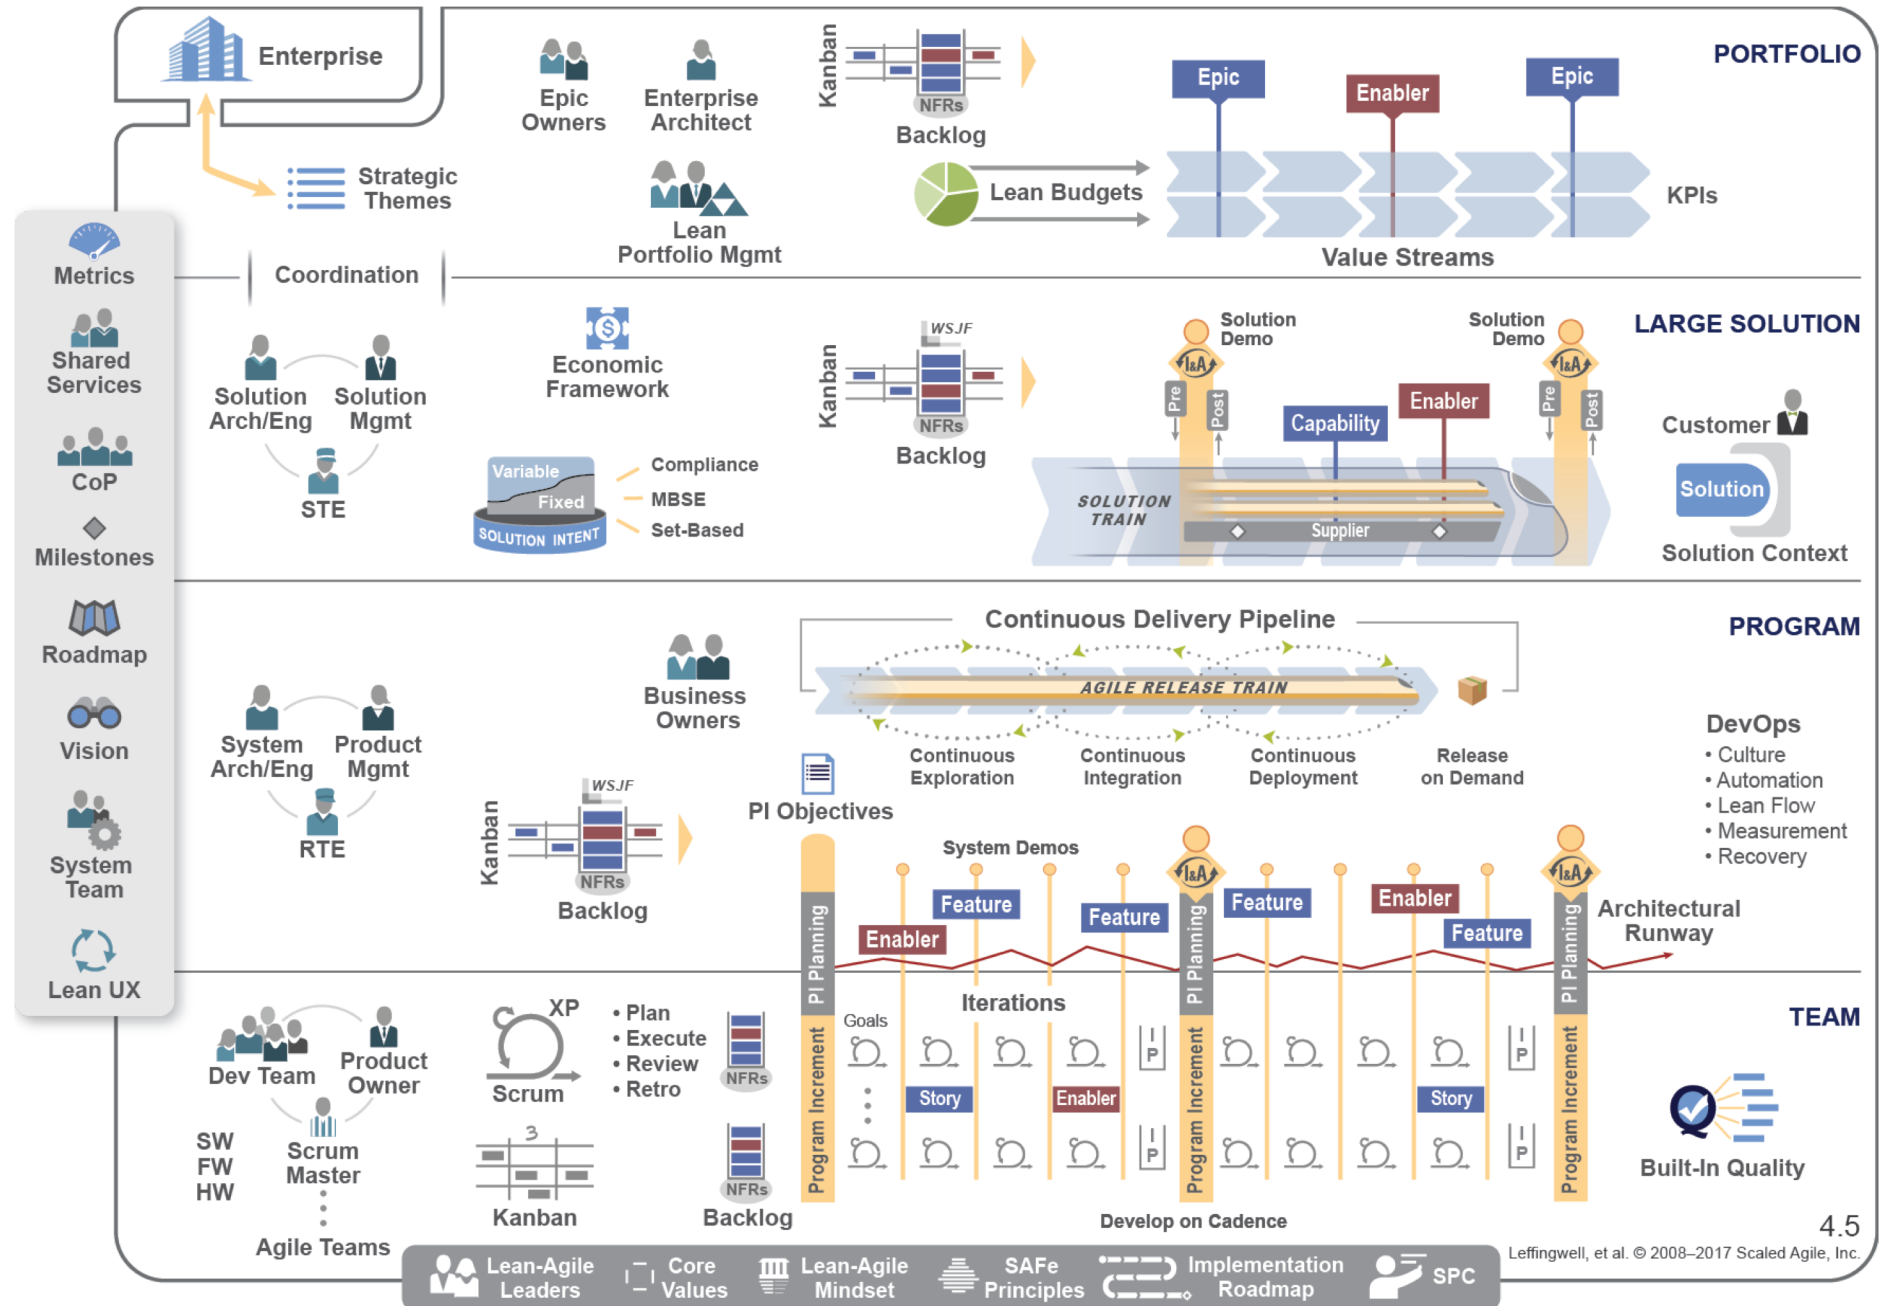

It strongly advocates **automation** and **monitoring** at all steps of **software construction**, from **integration, testing, releasing** to **deployment** and **infrastructure management**.

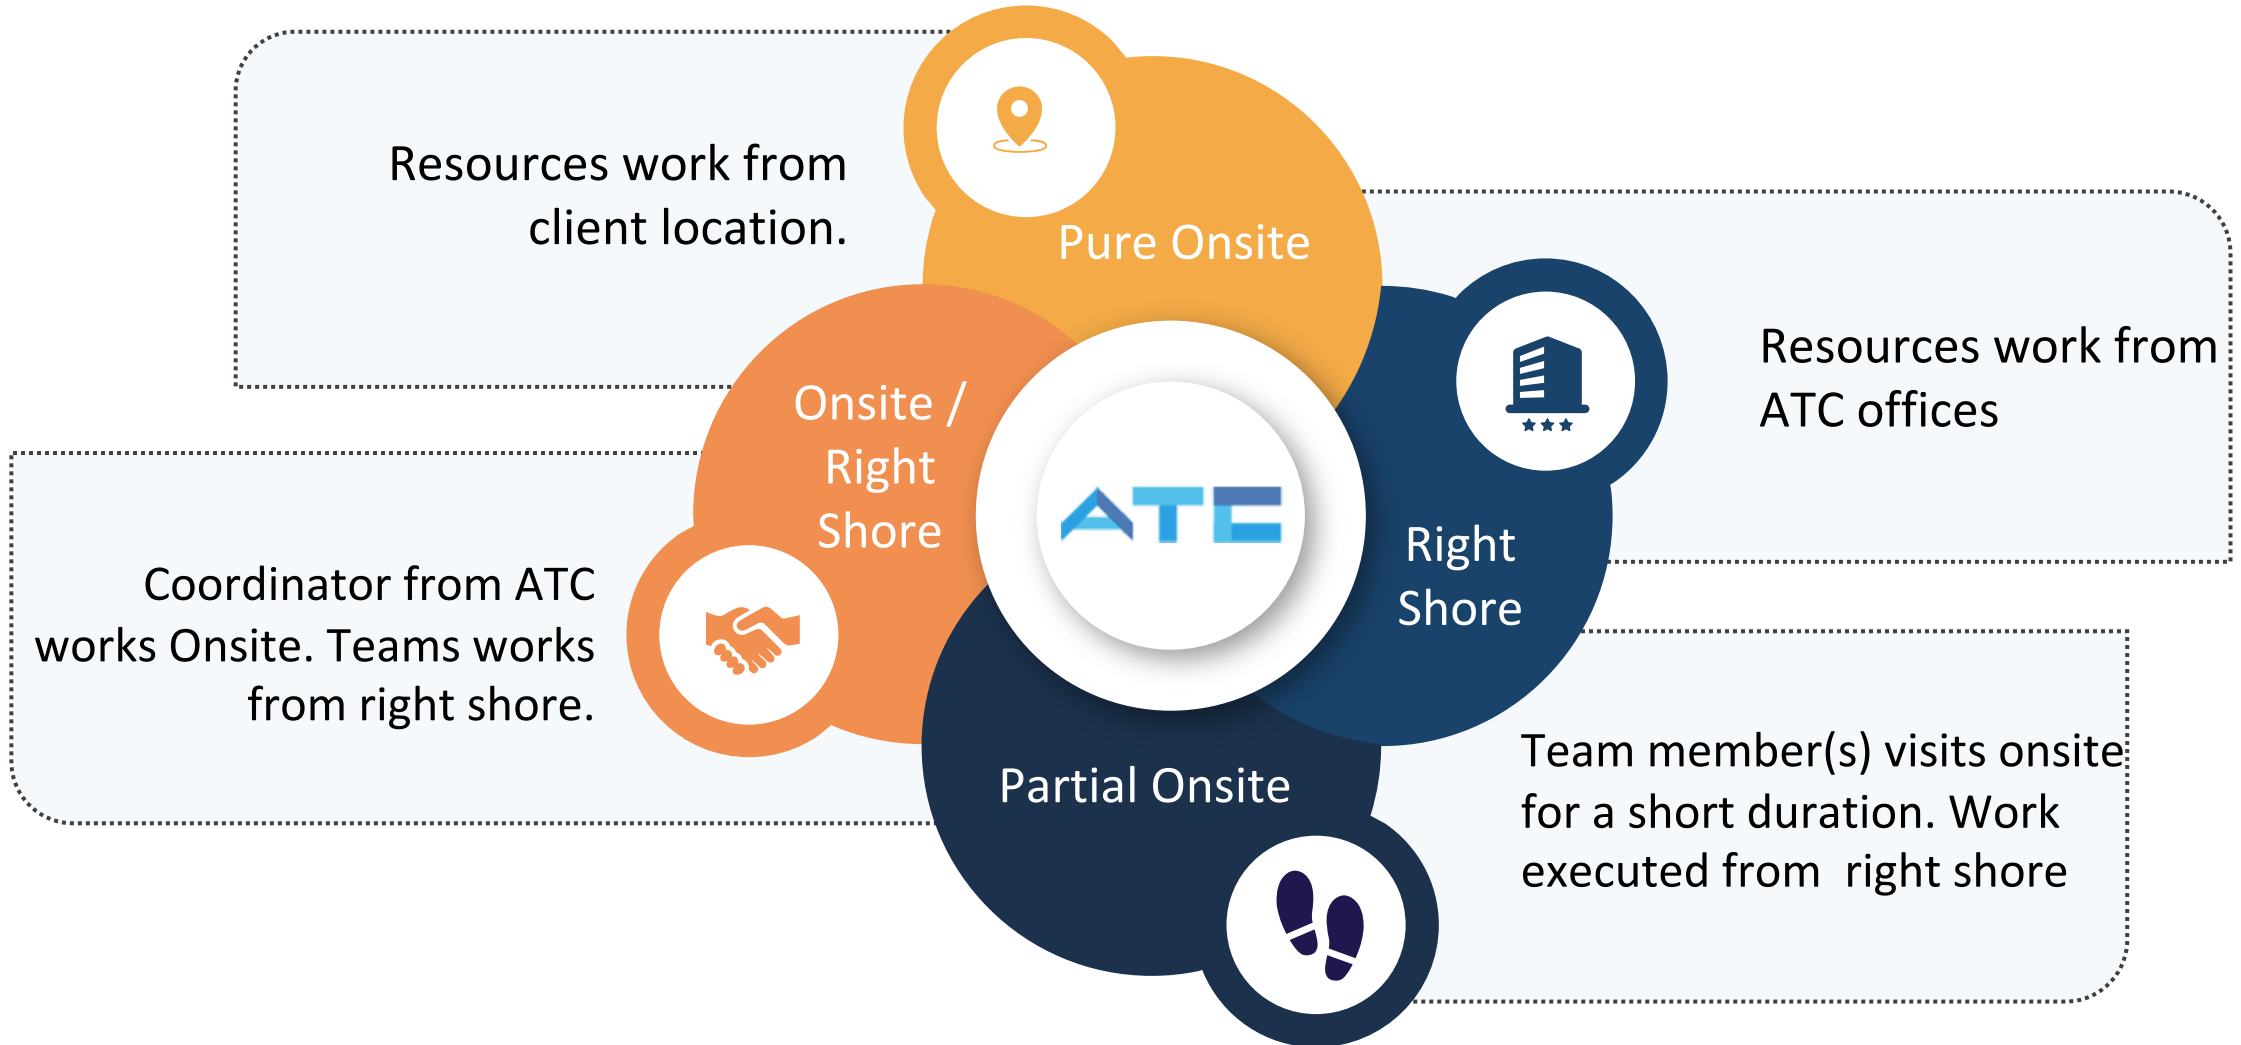

DevOps aims at shorter development cycles, **increased deployment frequency**, and more dependable releases, in close alignment with business objectives.

# SAFe Framework

# Delivery Models
