

# Move At The Speed Of Digital

In the digital era, failing to keep up with the pace of change leads to an inability to remain competitive. At ATC, we understand these challenges and have spent the last decade gathering the resources and expertise to help enterprises like yours move at the speed of digital.

## HOW WE CAN HELP

Our Business Solutions blends an array of tech offerings to help your organization successfully navigate through the complex world of digital transformation. We provide services for every step of your journey – leading, supporting, and optimizing your IT initiatives.

## ATC SERVICE OFFERINGS

### DevOps POD

Our DevOps POD helps large enterprises accelerate application delivery and quality by leveraging frameworks among teams for development and deployment purposes.

### Testing POD

ATC's Testing POD provides end-to-end, fully customizable and scalable testing functions at the program or enterprise level, keeping organizations focused on their core practices without sacrificing quality or time.

### Kubernetes

A container management tool that easily manages, scales and deploys an organization's applications, it simplifies and automates containerized workloads and services.

### Robotic Process Automation (RPA)

RPA functionality enables a software bot to automate repetitive, high-volume tasks for your organization, freeing workflows, and letting employees attend to more urgent matters.

### Lean-Agile Transformation

Overhaul your organizational structures, leadership styles, and workloads to transform your organization's development mindset to one creating more value for customers while using less resources.

### Artificial Intelligence (AI) Bots

A novel and growing trend, chat/conversation bots facilitate communication between workers and voice-activated devices and allows them to complete tasks hands-free. Examples include:

- Custom chatbots for internal use
- Chatbots for communication channels
- Voice skills
- Voice actions

### Agile & Scaled Agile Framework (SAFe) Training

Our certified Agile and SAFe training courses lead organizations through the transformation process with active, customized solutions to increase productivity, value output, and efficiency over time.

### Software Development for SaaS products

We provide the right tools, processes, and people to take your SaaS products from ideation to execution. Our capabilities let us dive in during any stage of your development cycle, thus maximizing our reach for your products.

### IT Staffing

ATC's experienced staffing experts connect you to a database of fully vetted, highly skilled technical candidates that also possess the right attributes for your culture while providing a fast, seamless process to ensure the best ROI for your organization.

## Why ATC?

ATC isn't a flash in the pan. We've been around for over 10 years, continuously honing and adding to our core competencies. Through astute leadership, thoughtful decision-making, and deliberate strategy, we've cultivated a deep knowledge of critical services and put in place the teams and resources needed to ensure you have the best customer experience.
