

# ATC

## Move At The Speed Of Digital

In the digital era, failing to keep up with the pace of change leads to an inability to remain competitive. At ATC, we understand these challenges and have spent the last decade gathering the resources and expertise to help enterprises like yours move at the speed of digital.

### HOW WE CAN HELP

ATC's Testing POD provides you with the right testing organization, processes, and environment to supplement your software development and testing process and still ensure the best results.

Utilize us when production deadlines are tight, additional expertise is needed, and resources aren't immediately available for the necessary testing scaling.

### WHAT YOU WILL GAIN

ATC helps clients achieve tremendous success through the implementation of our Testing POD, in both Agile and Scaled Agile (SAFe) environments.

- ✓ Measurable Quality Improvements
- ✓ Faster Time to Markets
- ✓ Reduced Cost of Testing
- ✓ On-Demand Scalability

## TESTING SERVICES OFFERED

### Performance Testing

Ensure your applications perform as intended through client-server, web, distributed, or mobile models across contexts and tech stacks.

### Functional Testing

Verify and validate your applications meet defined specifications and end-user expectations for functionality.

### Compatibility Testing

Confirm your solutions perform and function as intended across all popular browsers and devices, including mobile.

### Test Automation

Speed up your testing process to achieve greater coverage and accuracy whether you are doing unit, integration, functional, or regression testing.

### Security Testing

Safeguard valuable business and customer data against security breaches and comply with regulatory standards.

## Why ATC?

At ATC, we don't treat our clients as one-offs. We're all about building relationships and earning your trust. Along with exemplary customer service, our Testing POD provides:

- ✓ FREE Testing Process Assessment
- ✓ Certified Professionals
- ✓ ISO Quality Standards
- ✓ Tools Expertise
- ✓ End-to-End Automation

Think of us as your testing therapists. We'll listen to your problems, fix them, and give you ongoing support if they arise again.
